OM KUMAR MISHRA

Java Backend Developer

Bhubaneswar, Odisha, India | ommishra1449@gmail.com | +91-7903393843 | GitHub | LinkedIn

PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering graduate currently working as an Associate Software Engineer (Trainee) at AASHDIT Technologies, building backend applications with Java and Spring Boot. Experienced in designing REST APIs, MVC-based architectures, and relational database schemas. Passionate about building scalable, well-structured backend systems.

EDUCATION

GITA Autonomous College, Bhubaneswar *Aug 2022 – May 2026*
B.Tech in Computer Science and Engineering | CGPA: 8.01 / 10

DAV Public School, Bokaro Steel City, Jharkhand *2020 – 2022*
Class XII — CBSE | 73%

EXPERIENCE

AASHDIT Technologies — Associate Software Engineer (Trainee) | In-Person *Jul 2026 – Present*

- Developed and maintained backend applications using Java, Spring Boot, and REST APIs.
- Designed scalable backend modules following MVC architecture, OOP principles, and database best practices using MySQL and JPA/Hibernate.
- Collaborated with the development team using Git, GitHub, Postman, and IntelliJ IDEA for feature development and API testing.

Bariflo Cybernetics Private Limited — Java Developer Intern | In-Person | Bhubaneswar, Odisha *Apr 2026 – Jun 2026*

- Developed backend services using Java, Spring Boot, REST APIs, and MVC architecture.
- Contributed to a CMMS application by designing database schemas, developing REST APIs, and implementing Role-Based Access Control (RBAC).
- Followed Git/GitHub version control and industry-standard development practices.

PROJECTS

E-Commerce Backend System — GitHub | Live Demo

- Built a scalable backend for an e-commerce platform supporting product, user, and order management.
- Implemented JWT-based authentication and Role-Based Access Control (RBAC) for secure customer and admin access.
- Designed a relational database schema using JPA/Hibernate and MySQL for product and order data.

Tech: Java | Spring Boot | Spring Security | MySQL | JPA | Hibernate | REST APIs | Maven

Leave Management System — GitHub

- Built a web-based leave management system for employees to apply for, track, and manage leave requests.
- Implemented user authentication and an admin approval workflow for leave requests.
- Designed a database schema for users, leave records, and approval statuses using MySQL and JPA.

Tech: Java | Spring Boot | Spring MVC | MySQL | JPA | Hibernate | REST APIs

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript (basic)
Backend: Spring Boot, Spring MVC, Spring Security, REST APIs, JWT, JPA/Hibernate
Databases: MySQL, MongoDB
Tools: Git, GitHub, Postman, IntelliJ IDEA, VS Code, Maven
Concepts: OOP, Data Structures, Algorithms, MVC Architecture, RBAC, Exception Handling
Testing: STLC, SDLC

CERTIFICATIONS & ACHIEVEMENTS

- The Complete Full-Stack Web Development Bootcamp — Udemy (Verified Certificate)
- SQL — HackerRank (Verified Certificate)
- Software Engineer Intern Badge — HackerRank
- 300+ DSA problems solved on GeeksforGeeks and LeetCode (Arrays, Strings, Recursion, Trees)
- Web Development Internship Certificate — CodSoft (ISO 9001:2015 Certified, MSME Registered)

SOFT SKILLS

Communication | Teamwork | Problem Solving | Quick Learner
